

There are two type of surveyors required:

- **OD Surveyors** - These surveyors will interview heavy vehicle/truck drivers at weighbridges. Thus, they must be comfortable talking to truck drivers.
- **TC Surveyors** - These surveyors will classify and count heavy vehicles/ trucks passing by predefined points where the surveyors will be stationed. Thus, they need to have good eyesight.

Additional requirements for each surveyor:

- Fluent in English, additional languages are a bonus.
- Reliable cellphone (the surveyor will need to download and make use of a custom developed mobile app; data will be provided.).
- Able to report at a predefined location within the relevant town on the day of training (time to be confirmed, likely after 14:00).

Additional information:

- Surveyors will only be paid for the days on which the surveys are completed (i.e., # Working days indicated)
- Accommodation and transport will be provided until the completion of the last day of surveys (For example, if the surveys are scheduled for 6 and 7 May, the surveyor will receive accommodation from the 5th of May until the morning of the 7th of May).

Salary Rate : R60 per hour
